

## Board of Management

Term: November 2010 – October 2012

The CYEN is governed by a Board of Management (BoM) that is headed by Regional Chairman. The BoM is comprised of members of the Network that are elected at the biennial Congress. The BoM oversees and ensures that the policy and programming direction set out by the Congress are adhered to. The regional day-to-day operations of the CYEN are managed by the office of the Executive Coordinator. At the national or country level, individual and organisational members of the Network work together as Chapters. Each Chapter is headed by a National Coordinator who ensures that programming activities are undertaken in accordance with the regional planning process.
