As we all know CYEN-TT is committed to rallying for the environment and as such we have organised and are participating in a number of innovative projects and programmes. The events for this quarter are as follows:

International Coastal Cleanup 2010

Every year, CNIRD and the National Planning Committee for Trinidad and Tobago hosts ICC which caters to several beaches around Trinidad. This year, members had a choice of participating on the beach most convenient for you. We all know that the cleaner our beaches are the more fun in the sun we can have and safer our environment can be. Members of CYENTT came out in their glory at Manzanilla Beach on Saturday 25th September. Here are a few pictures from the day

NWCT/CYENTT Workshop: YOUTH AND TRADE

The Trinidad & Tobago National Working Committee on Trade held a Workshop on Saturday 16th, 2010, from 9.00a.m 2.00p.m in **Lecture Room 1 at the University of the West Indies Institute of International Relations**. This Workshop, specifically targeted to youth, is designed to provide education and build awareness on youth unemployment and its relation to trade and in the context of the CARICOM/CANADA Negotiations. Participants explored the issues involved in trade and labour agreements, and became more aware of the region's obligations with regard to international trade agreements .

CYEN 8th Biennial Congress and Caribbean Youth Environmental Summit

Every two years, CYEN hosts a gathering for all members throughout the region to interact, participate in environmental training, have discourse on the state of the environment, and develop the CYEN action plan for the next 2 years. Congress was held on 28th October to 1st November, 2010 in St. Vincent and the Grenadines.

COP16 Caribbean Youth Delegation

Last but not least, on the CYEN agenda for this year is COP-16. Every year, under the United Nations Framework Convention on Climate Change, the Heads of Government throughout the world gather to discuss climate change issues. Of utmost importance is our leaders' agreement to a binding climate change treaty. As the youth of our nation, it is our responsibility to ensure that our leaders are lobbied into taking immediate action on climate change issues and achieve sustainable development goals. If you are interested in truly making a difference in the world we live in, and actively representing the youth of our country and the region.

We wish to thank you again for your continued support throughout the years. Remember that we can only save the environment with your help and involvement. Thank you

The CYENTT Committee
